

A romantic couple is shown from behind, embracing on a mountain peak. The man is on the left, wearing a white t-shirt, and the woman is on the right, wearing a brown vest over a white top. They are looking out over a vast, hazy landscape under a soft, golden sunset sky. The entire scene is framed by a dark, double-lined border.

A White Label Program of *A Different Color*

im·bue botanicals™
for those who know...

Looking for the Finest CBD White Label Products Available? Look No Further.

When looking for a CBD white label supplier, finding one with sales experience, product depth and recognition of providing the very best products on the market is vital.

As one of the very first companies in the US CBD space, Imbue Botanicals was at the very forefront of using US grown hemp in our manufacturing process. For the last 7 years, we've developed and successfully sold our products to both retail and wholesale customers. We understand the science behind CBD better than virtually any other company.

Every hemp plant we use is grown, processed and extracted in Colorado, and all of our products are made there. We only grow our
PAGE 2

hemp in fields suitable for products intended for human consumption, never in fields that grew crops like tobacco which can leach undesirable elements or heavy metals. And growing ONLY at high altitude ensures that our hemp is exposed to higher concentrations of sunlight, resulting in better, more robust cannabinoid and terpene profiles. quality and consistency.

But that was just beginning. We led the way in developing clinically efficacious CBD products.

- We developed one of the few commercially available vegetable glycerin-based tinctures to provide faster absorption and enhanced bioavailability.
- We were first in market with a CBD capsule that's entirely vegan and highly effective.
- We formulated the most complete line of topicals that work across a myriad of maladies.
- Imbue Botanicals has become the CBD brand pharmacists trust. We were instrumental in opening up the independent pharmacy market for CBD.
- We developed our own proprietary CBD extracts solely using low temperature, low pressure ethanol just like RSO (Rick Simpson Oil). It's more time consuming and more difficult, but the concentrate is simply unrivaled when it comes to cannabinoid and terpene profiles.
- We offer the most extensive line of proprietary white label premium, clinical-grade CBD products, including tinctures, supplement-enhanced tinctures, capsules, gummies and topical lotions and salves. We even have dental products...all available in multiple strengths... for both people and pets.
- We understand that just like any drug or supplement, people respond individually to CBD, so we make many different products in different delivery forms and multiple strengths so that we can offer a more personalized solution for each and every customer.

At Imbue Botanicals, we wrote the book for the most extensive product quality testing in the industry, and all of our products are batch tested by independent laboratories. We process in cGMP-compliant facilities using best practices of manufacturing to ensure a consistent, reliable outcome.

All of this has made Imbue one of the most awarded brands in the industry, including:

- Men's Health 2019 Facial Cream of the Year
- Global Health and Pharma 2021 Best Animal and Human CBD Products Company USA
- Global Health and Pharma CBD Supplement Company of the Year 2022 – USA
- Trust Pilot 5 star rating with over 1,100 Reviews
- CBD Oil Review 5 Start Rating
- Stoner Mom 5 Star Rating

So whatever white label CBD hemp products you need for your growing business, we have you covered. With safe, quality products, wonderfully reviewed that really work, made in the USA. There's only one Imbue Botanicals. Contact us TODAY!

CBD TINCTURES *of* HEMP

Imbue has one of the most extensive offerings of CBD tinctures available based on our renown natural glycerin-based varieties. Whatever the need or application, we have you covered. With our proprietary CBD oils, all of our tinctures contain a full cadre of cannabinoids and terpenes to ensure maximum efficacy and performance, with unmatched quality and taste. And our glycerin-based technology provides the fastest absorption along with high bioavailability.

As one of the oldest delivery forms for cannabinoids, we didn't want to simply rest on old historical approaches, but rather reinvent and dramatically improve the utilization of these century-old compounds. And that's exactly what we've done. No fillers or flavors, just pure CBD oil and organic, vegetable glycerin from pygmy palm fruit.

Need a different carrier? No problem. We can custom make any tincture to suit your needs.

HEMP CBD CAPSULES

Imbue Botanicals was the very first company to introduce a CBD capsule. Our exclusive CBD capsules provide a convenient alternative to tinctures when a higher, more sustained, exact dose is preferred. The Vegan capsules are colored with natural chlorophyll to protect the CBD oil from light which can cause degradation. And Imbue Botanicals is the only company we know of to utilize organic hemp seed oil as a carrier, which provides exceptional consistency and absorption.

HEMP CBD TOPICALS

Our proprietary topical CBD lotions provide unrivaled comfort and restore vitality to areas where applied and can be packaged in glass or plastic dispenser bottles. They pack a full 50 mg per ounce of organic Full Spectrum CBD and carefully curated essential oils. Our proprietary CBD salves are made to the highest clinical standards and allow for dermatological application of our Full Spectrum CBD. Made with our organic Colorado grown CBD oil, it's carefully infused into natural beeswax and pure grapeseed oil, and combined with powerful essential oils of rosemary and mint and infused arnica flowers.

Imbue was the very first company to capitalize on the CBD topicals market. From our exceptionally well-reviewed salves and lotion to our award-winning CBD facial cream, no one knows topicals better than Imbue. Our topicals have been providing relief for patients and customers for over 7 years. Our topicals consistently elicit passionate praise from our customers. Used in combination with our capsules and tinctures, or simply by themselves, they truly are exceptional products. Available in lotions, salves, massage oils and creams, they're all worth adding to your product offering!
